Difficult questions

At the meeting on 22 September we were asked to repeat the questions Dr Jo Withers read out during her presentation. The questions are set out below:

- What is the main thing on your mind
- What's your understanding of your health
- What are your fears and worries for the future
- What matters most to you
- What are your priorities

Jo did say these are examples of the type of open questions you could use, but suggested that you should try and use your own words.
