#### **About the Patient Experience Strategy Group:**

The Thames Valley and Milton Keynes Patient Experience Strategy Group (PEXSG) was set up by Oxford AHSN, the Thames Valley Area Team and Strategic Clinical Networks to support the development of person-centred care across Buckinghamshire, Berkshire, Oxfordshire and Milton Keynes. We will promote activities across

- Involvement: working with patients, carers and the public to improve care delivery, training, education, research and innovation for the whole population
- Engagement: working with patients and their families to improve their own care
- Experience: listening to and acting on what patients, carers and the public say - collecting, understanding and using patients' and the public's feelings about their involvement and engagement in care, research and innovation
