

National Headliners

Compassion in Dying releases a new “Advance Decision Pack”: It allows people to record any treatments that they do not want to be given in the future, in case they later become unable to make or communicate decisions. It enables people to remain at the heart of these choices, giving peace of mind and facilitating personalised, planned end-of-life care.

NCPC publishes ‘Developing an Asset Based Approach Within a Learning Community - Using End of Life Care as an Example’: This practical guide provides detail on what an asset based approach can look like and what factors need to be in place, incorporating lessons learnt and tips from those who have already explored the approach. **Download the resource [here](#)**

NEoLCIN Webinar on end of life care in Care Homes: If you missed out the first time, you can view this webinar again [here](#):

Topics included:

- The key challenges to providing end of life care in care homes
- An overview of capacity and need for end of life care services in care homes
- Data exploring what care home residents die from and where they die
- A tutorial on new care home indicators that have been added to the End of Life Care Profiles

End of Life Bulletin July 2017
