Visit Tab
You can see all the patients attending a chemo clinic (select location), or under a specific consultant (Provider), select the date you want to view.

Highlight a patient and select **Open**, or double click on the patient bar to open that patient.

**Click Schedule:** To view the patient’s chemo appointments

**Right click** on the patient bar to see demographics, diagnosis, treatment, allergies, trial information.

**Click** on the icons on the patient bar to see notes and visit information e.g. patients are in, or have been in a trial.
