

# Psychiatry for GPs study session

Thursday 27th June 2019

13:15 (registration from 13:00)—16:30

Holiday Inn Maidenhead, Manor Lane, Maidenhead, SL6 2RA

**A half-day session for GPs focused on acute psychiatry presentations in a primary care setting.**

The session will feature short talks from expert speakers and will focus on presentations encountered regularly by GPs. It will also include further training opportunities and resources .

**The event has incorporated feedback from previous events and includes the topics below as requested by the GPs who attended previously.**

- Managing women with mental health conditions during the perinatal period
- Changes to Dementia medication recommendations
- Suicide prevention including a family perspective
- Berkshire suicide review audit
- Psychological approaches to working with chronic pain
- Resources for improving mental health

Join GP colleagues to hear from expert speakers and join the discussion. Places are likely to fill up fast so please register today at the following link:
