

Psychiatry for GPs study session

Wednesday 18 September 2019

13:15 (registration from 12:45)—17:00

Diamond Room, Gateway Conference Centre, Gateway Road, Aylesbury HP19 8FF

About this session:

A half-day session for GPs focused on acute psychiatry presentations in a primary care setting.

The session will feature short talks from expert speakers and will focus on presentations encountered regularly by GPs. It will also include further training opportunities and resources to use in clinical practice.

The event has incorporated feedback from previous events and includes the topics below as requested by the GPs who attended.

- Side effects of Psychotropic drugs
- Children and Young People mental health
- Personality Disorder
- Bipolar Disorder
- Suicide Prevention
- Detail of training opportunities and resources for mental health support

Join GP colleagues to hear from expert speakers and join the discussion. Places are likely to fill up fast so please register today at the following link:
