

**Supporting local implementation of secondary prevention of hypertension, atrial fibrillation and diabetes, and NHS Smokefree status for the Thames Valley, Thursday 28th September 2017 in Penta Hotel, Oxford Road, Reading, RG1 7RH**

A local forum to bring together the Thames Valley health economy to focus on local implementation examples for

- diabetes treatment target achievement
- management and detection of hypertension and AF
- implementing a smokefree NHS in Thames Valley

You will have an opportunity to seek advice from local leads from PHE, NHS England, NHS RightCare, British Heart Foundation and NICE and be able to learn from other areas about their implementation experiences.
