

National Headliners

Public Health England releases its first atlas of variation for palliative and end of life care in England: This atlas of variation is part of a collection of themed atlases on healthcare, and is available on the PHE [atlas of variation](#) website. It contains 29 indicators of need for palliative and EoLC such as indicators of the quality of care in hospitals and in the community.

End of Life Bulletin November 2018

Department of Health and Social Care release their response to the Gosport Report 'Learning from Gosport': The response sets out a number of measures that have been put in place since the events described in the report. These include stronger measures to ensure the safety of controlled drugs, and an independent, clinically led inspectorate.

Review of the action set out in 'Safer ambulatory syringe drivers' sets out the Government's findings:

This follows a review of the action taken from 2010 to address safety concerns with certain ambulatory syringe drivers. It considers the decision-making process around the safety alert, including the evidence for action, the timeliness of the decision, and how quickly the action was completed.
